VeWa Note

As we bring Waves of Vethathiri, the Divine blessing of the Master, Shri Vethathiri Maharishi, after a small pause (since November 2019), a lot has happened in this intervening period. The world is experiencing a phenomenal change; routine has become non-routine and obvious plans are either stalled or postponed.

Some of the prominent updates - WCSC submitted application for [Consultative Status in June 2019 to the United Nations - ECOSOC](#). Some members were skeptical and had apprehensions on how it will benefit WCSC if we are a part of the UNO body. Ensuing section explains the rationale why it is important for WCSC to be a part of the UN body.

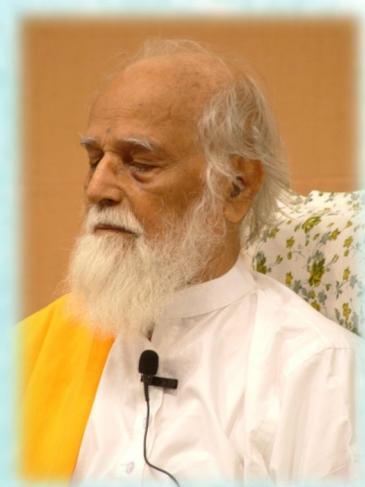

The Economic and Social Council (ECOSOC) is one of the 5 main organs of the United Nation Organisation (UNO). The others are General Assembly, Security Council, International Court of Justice and the Secretariat. ECOSOC is the only organisation in which a voluntary organisation like WCSC can participate. It is a very powerful organisation which looks after the economic and social activities in the whole world and more than 15 specialised agencies such as FAO, ILO, UNESCO, IBRD, International Development Association etc. report to the ECOSOC and more than 5000 voluntary organisations are registered with it. Hence, if [WCSC get consultative status in ECOSOC](#),

we will be able to participate in all relevant conferences and bring Swamiji's concepts to the notice of all these organisations. It has 54 countries as members of

ECOSOC hence we will be able to make significant impact and may take concepts of World Peace plan to the General Assembly of UNO through ECOSOC. This will open the doors to be connected to WHO, UNESCO etc. spreading Swamiji's concepts across all International organisations. It is a matter of repute and importance that WCSCC gets the requisite status in ECOSOC. Accreditation with ECOSOC will help WCSC to be involved in various special social SDG (Sustainable development goals) projects with financial assistance from various international sources.

[**As Vethathirians we should all use the most powerful technique of Blessing that we are empowered with i.e.; blessing WCSC to acquire UN consultative status for benefit of entire humanity.**](#)

We present this month edition with complete awareness that few editions of this newsletter could not be brought out for previous months. With emergence of few priority tasks, the focus of the team was

VeWa Note

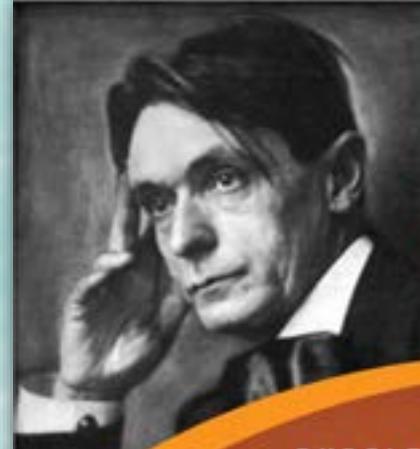

shifted and were overwhelmed with the amount of efforts which were required to progress on those.

We, as an organization, had to ramp up some of the information that was being showcased on the website and elevate it to international standards. One of them was increasing the coverage of WCSC websites, a window to outside world. This was done so that our multi-faceted organisation harnesses technology and provides coverage of the vast gamut of activities being carried out by the WCSC. A plethora of information was collected from all Directorates, compiled and shared with IT for updating on the website. **Inputs, information, infographics and suggestions were provided to help upscale the website and to enable / increase outreach.** Some of those inputs are displayed in the later part of this e-magazine.

VeWa team will relentlessly continue the dedication and commitment to bring forth VeWa in this journey towards Consciousness as guided by our Divine Guru Shri Vethathiri Maharishi. We have endeavored to consolidate and share all important updates in concise form in **this edition of VeWa covering previous months.**

The world today is being gripped by an organism, a virus, that is questioning human existence. Fear, anxiety, uncertainty and helplessness are the emotions that are overpowering hope, faith, humanity and other positive thoughts. To overcome this

and to spread positive waves, 24-hour meditation, blessing and special speeches was organised for 9 days, **over 207 hours in English and in many Indian languages round the clock gathering Vethathirians** and spreading health and peace waves around the Universe as one. See the VeWa Online section for more details of the program conducted.

RUDOLF STEINER
In the year 1917 quoted,

RUDOLF STEINER

In times when there were no electrical currents, when the air was not swarming with electrical influences, it was easier to be human. . .
For this reason, in order to be human at all today, it is necessary to expend much stronger spiritual capacities than was necessary a century ago.

Though this was quoted in 1917, it will continue to be relevant for all decades until humans realize the **true purpose of life and birth.**

All great philosophers, spiritualists, esotericists, acclaimed clairvoyants, seekers of nature & universal truths, our great ancient Indian sages, Maharishis and other Spiritual Masters of different religions and creeds have all echoed the need for

VeWa Note

elevating consciousness and progressing and treading the path of spirituality.

In all of Swamiji's teachings, the concept of Blessing is supramental and the benefits, teachings and miracles of Blessings are evident throughout the knowledge that he has given to the World. It is one of the most practical methods for happiness and peace.

So how is blessing going to help mankind in the current scenario? Read about this in the ***"Cruising through uncertain times"*** and ***"Powerful Traditional Technique.. unleash it".***

Before proceeding further, go ahead and **READ** the above two articles **NOW**. **THEY** are the **MOST** crucial things that the World needs today and **EXTREMELY IMPORTANT** thing that **YOU WILL DO TODAY**

Welcome back, hope you liked what you read, imbibe it and let it implant in your **Genetic Centre**.

Technology is the saving grace in these times. While the entire world is in lockdown, tech like "Zoom", "Skype", "Webinars" etc. are helping us zoom out of loneliness and zoom into the circle of togetherness. Read about the various programs organized by the members across the World and the innovative sessions conducted for kids and adults.

Vethathiri Maharishi's teachings always have a consistent thread of elevating

consciousness, connecting to the absolute and Divine, creating a synthesis of science and spirituality. VeWa will continue to bring at the click or swipe of your finger our futuristic Guru's teachings, share with you the SKY Family updates around the World, in addition to other interesting and unique information, content and verses.

Enjoy reading this month's VeWa, and share your feedback by writing back or messaging us. Encourage others to read it and spread the waves of positivity to make this World and Nature a connected place.

Join the mission; **Vethathiri Global Transformation @**

Be Blessed by the Divine. May the whole world enjoy prosperity, happiness and peace.

The world is facing unusual and unprecedented circumstances. As Vethathirians, let us analyse these with the guidance and knowledge imparted by Vethathiri Maharishi to the World.

The current 'external' situations have a mirror-effect on our internal life. Swamiji said that to have a clear understanding of the mind, one must trace its origin. So it's imperative that in this period of 'lock-down', let us strive to unlock our inner potential; let this disconnection from other people connect us deeper to our true self; let our inability to visit a temple (or any place of worship) bring us to a state where Divine presence is felt and called forth often; let the chaos outside make us discover the peace within; and May we worry less & less about a virus and be more & more involved with our own 'vibrational-alignment' with vitality & wellbeing.

New Year is also about new ideas (and we normally seem to associate a new year with new resolutions). Swamiji says, any disturbance occurs in two ways, either through our own actions or through the functioning of natural forces.

Let's expand our understanding of self-isolation. Just as we take precautions for our body, our mind too needs intervention, safeguards and nourishment. Throughout history, more people have died in epidemics, from fear (of a disease), than the actual disease itself. And all of us have different levels of immunity to varied opinions, thoughts & news in social media. Our ceaseless passion (for social media) is one area which has many of the low-hanging fruits (for our mental well-being) - that is once we decide which tweets, posts, messages & news are to be read / heard / watched versus what has to be avoided / distanced / 'unfollowed' (at least for the time being). We have heard that a habit crystallizes once we follow it for 21 days. The lock-down of 21 days is prescribed for a similar amount of time!

Swamiji believed that through natural providence, man is blessed with a worthy body and valuable knowledge. The resources for life on earth are surplus but the selfishness and temperamental mood developed by unchecked ego are spoiling the life.

Nature is the commander and it is giving humanity a chance to rediscover the purpose of life, to rewind through time, recollect the reasons for imbalance and to revisit the process of evolution and connect to Nature in its entirety.

Man was basking at the top of the evolutionary pyramid, drugged with power and greed, ignoring the force of Mother Nature and how much he depends on her every moment of his life, even for survival.

Nature has not only shattered the ego of Man, but is establishing itself as the ultimate balancer. Through lockdown and social distancing, living needs and lifestyle needs are being segregated, the understanding of essentials, comforts and luxury is dawning across classes.

While the earth is healing with reduced human interference, let us fully comprehend Swamiji's teachings of elevating consciousness, of the omnipresent and all-pervasive phenomenon exhibiting itself as order of function

throughout the Universe.

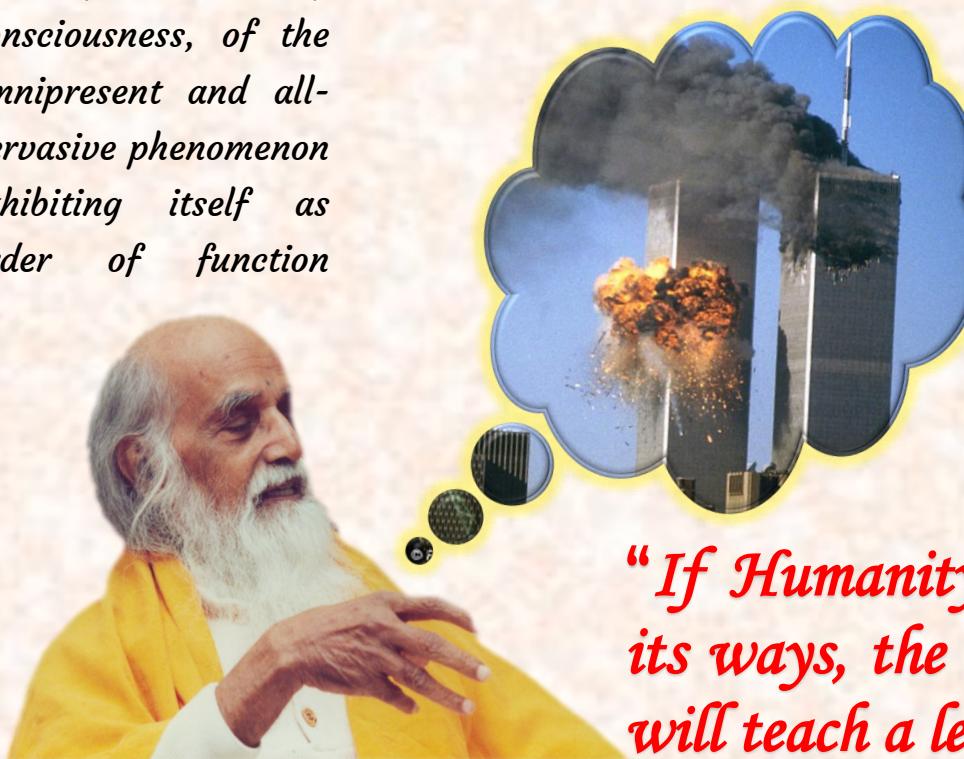

Let us heed Vethathiri Maharishi's ominous warning: "If Humanity does not mend its ways, the Universal Might will teach a lesson".

That is the statement he intuitively made just a few hours before the attack on the Twin Towers.

At least now let us start changing our lives, segregate needs and greed, learn to live in harmony with self, society and Nature, Understand the Cause and Effect system as Divine Law which no one can break without paying a huge price for it.

Let our economic, social, political and legal setups be revisited and let wisdom guide us and not brute force. Let leaders of the world get together and draw up a plan for the entire humanity for the welfare of all

living beings and not for select few at the cost of everyone including their own downfall.

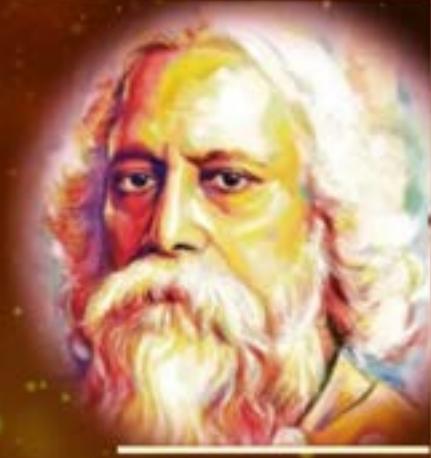

"If Humanity does not mend its ways, the Universal Might will teach a lesson".

Let us remind ourselves the words of Rabindranath Tagore and try to put it in practice at all levels

"Where knowledge is free;
where the world has not been broken up
into fragments
by narrow domestic walls;
where words come out from the depth of
Truth;
where tireless striving stretches its arms
towards perfection;
where the clear stream of reason has not
lost its way
into the dreary desert sand of dead habit;
where the mind is led forward by thee
into ever-widening thought and action,
into that heaven of freedom, my Father, let
my country **NAY WORLD** awake."

RABINDRANATH

TAGORE

The weak have no place here, in this life or in any other life. Weakness leads to slavery. Weakness leads to all kinds of misery; physical and mental. Weakness is death. There are hundreds of thousands of microbes surrounding us, but they cannot harm us unless we become weak, until the body is ready and predisposed to receive them.

There may be a million microbes of misery, floating about us. Never mind! They dare not approach us, they have no power to get a hold on us, until the mind is weakened.

This is the great fact; strength is life, weakness is death. Strength is felicity, life eternal, immortal; weakness is constant strain and misery; weakness is death.

WEAKNESS

- Swami Vivekanandha

I was in the usual rush, trying to reach the meeting on time, browsing my phone walking briskly with a million thoughts in my head. Radha, the analyst sees me and wishes me "Good Morning". Without even giving her a glance, I said "Good Morning, how are you? and walked away.

I didn't even wait to hear a reply, and it was much later, while the mind was quiet, it started rewinding and connecting to that moment, where her reply was "Morning, not so good Sir".

Many of us go through life routinely without empathising or even paying the minutest attention.

BLESSINGS are *Thought waves* which carry positive vibrations.

We generally say Hello, Good morning, Namaste etc. These are nothing but blessings only, but we do it mechanically without knowing the science behind it. Just words do not bring results. Then how do you make it work? Let us try to understand the science behind the *Blessings*.

Swamiji has explained the Wave Theory in depth and helped us understand the powerful technique in simple terms.

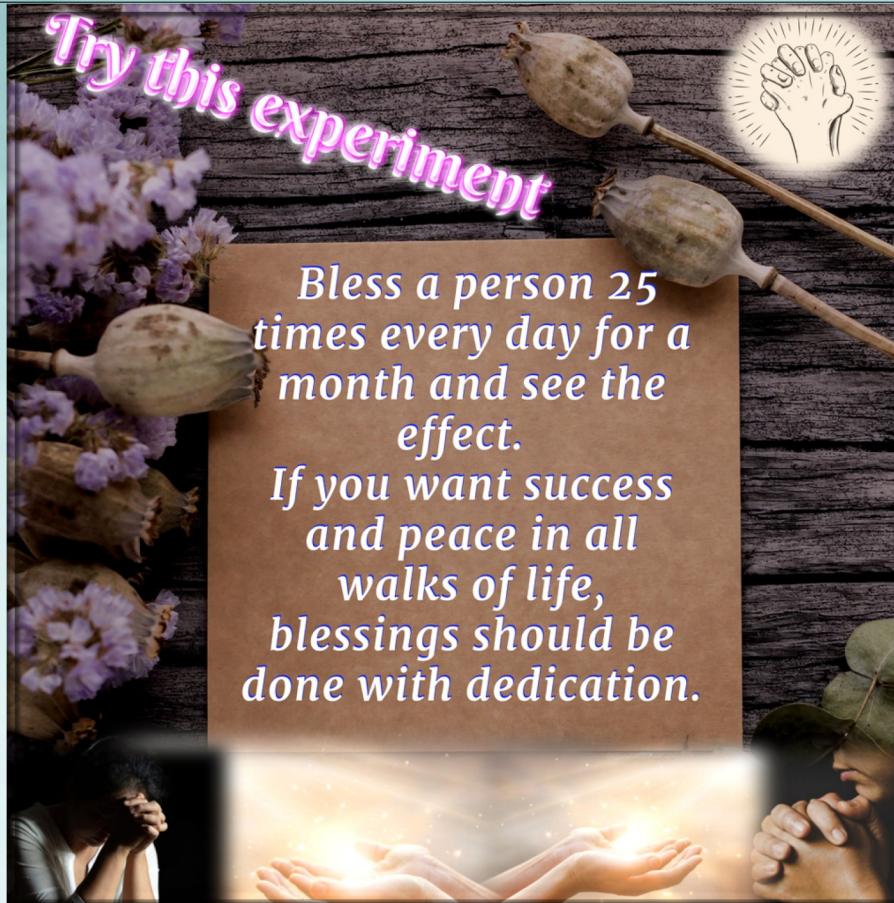

A wave carries with it all the qualities of the source from which it originates: physical, chemical, psychic etc. and are transmitted to the object which receives it.

It is like the smell of the Rose flower impacting all the objects on which the rose wave falls. When we direct a thought to a person, it does five actions. So, if we want others to be good, let us start sending positive, fragrant waves. But How?

When we bless others, first thing that happens is that you yourself get blessed

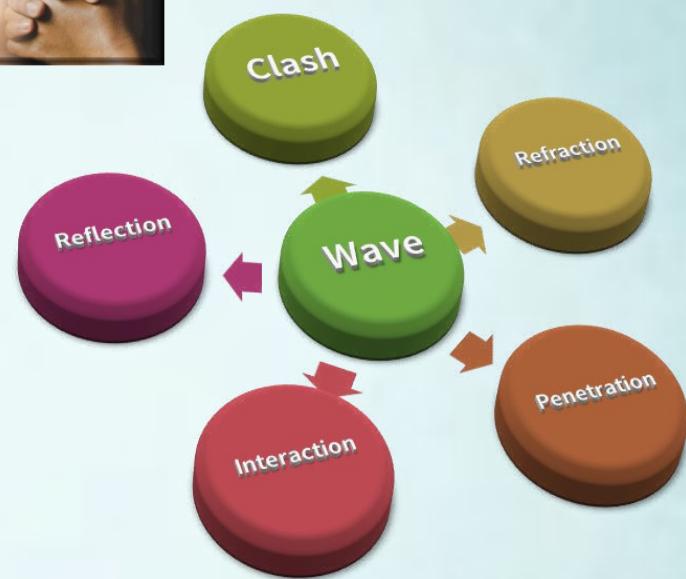

automatically. The good vibration of the thought makes a positive physical, chemical and psychological change in you.

A counter example would help us understand this. When we get angry with someone, what happens to us? Our Blood pressure increases, eyes become red etc. Similarly, when we bless, first the positive impact will be on us. Then, this impacts the person on whom it is

directed in a positive manner. A portion of the waves reflect and come back to you. A portion of the waves refract and influence those around too. A portion of the waves keep interacting between the two and a portion of the waves penetrate.

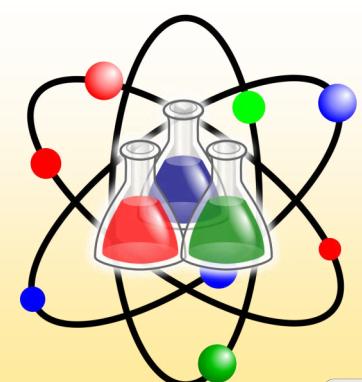

In short- Clash, Reflection, Refraction, Penetration and Interaction are the five-fold actions of the thought waves. See how beneficial the result will be, with its multifarious

effects on both the sender and the receiver as well as on others. In fact, it is more potent than *mantras*.

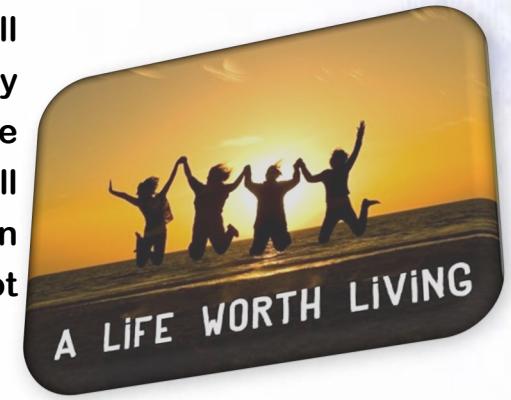

Proven science:

We attract situation as per our thoughts only. If we keep thinking that my child is not good, my wife/husband/boss/subordinate is not treating me well, our own thought wave will make the situation worse, as we are the ones strengthening those waves. We can change the situation by sending positive waves through Blessing.

Harmony in Life

Blessings without remembering the ill feelings only will bring results. Shri Vethathiri Maharishi says, at any point of time there can be only one thought. So, while we consider the individual as someone for who we have ill feeling/enmity, we cannot bless and similarly, when you bless wholeheartedly, at that moment, you cannot have enmity.

Hence, to bless we should have only one dominating thought or feeling towards the person. The reason for not getting results is that we don't bless wholeheartedly, having enmity or negativity inside. So, the wave carries our negativity also, which weakens our prayers and blessings.

In the beginning, it will be difficult but as we keep doing it, the habit of not having the feeling of enmity will increase and sooner than later, the feeling of enmity will vanish from your heart and influence the other person too.

A thought wave will bring results depending on the intensity of the wave sent and the quality of the receiver. So, we have to bless with patience, forgetting the enmity at the time of blessing and minimizing the expectation. A parent blessing the child should do so irrespective of the nature of the child. This slowly influences the child physically and mentally and brings about the required change. Patience is the key for desired result.

Blessing with agitated mind will carry only the agitated waves. Bringing the mind to a very calm state and without any expectation of results is primary to send the positive waves. Such a process of blessings will bring magic in our life.

That is why Swamiji has added a significant clause while he asks us to bless our enemies or miscreants. It is "if any". In due course we will find that we will not consider anyone as enemy at all.

Imagine how light our heart would be and how bright the life would be.

Harmony at Office/Society

An employee having a tough boss with lots of clashes everyday will have a troubled life at all levels. Blessing the boss everyday sincerely will bring a change depending on the law of Nature.

If the necessary change in their attitude does not happen, either the employee or the boss will be transferred bringing about peace. Similarly the negative effect of a torturing neighbour can be nullified or positive change can be brought about.

A river flowing down the stream has millions of droplets. Each droplet is separate and unique. But, they appear as sheets of waters flowing down in unison as continuous flow of water.

Similarly, there are hundreds of thoughts that occupy our mind but, between every two thoughts there is a gap, however minuscule.

There can be only one thought, like each droplet in the continuous stream of water. Therefore it is up to us to decide the character of that thought.

At a particular moment while blessing a person whole heartedly, vile or enmity thoughts cannot be there.

Practicing this regularly will create a subconscious transformation which will completely weed out the animosity against the individual.

Harmony at home

An interesting incident : In Delhi, a couple were not talking to each other for years due to some misunderstanding, though they were living in the same house with three kids. Knowing this Maharishi asked the man to bless his spouse regularly after meditation.

During his next visit to Delhi, Maharishi found that the relationship between the husband and wife had changed to a harmonious one.

On enquiring, the husband replied that he improvised Swamiji's teaching and instead of just blessing her (his wife) as life partner, he also blessed her as a boss and as an enemy. This had a three fold effect on the relationship.

His continuous blessing waves not only transformed his wife but also his attitude towards her.

How to bless:

If you don't know meditation, just sit quiet, relax your mind, forget the enmity with the person, visualise the person and bless saying '**Vazhga Valamudan**' or '**Be blessed by the Divine**'.

When to bless:

There is no time or place for blessing, it can be done at any time during any activity or even while relaxing, travelling, eating etc. This habit creates a strong bond between the two. By this simple technique we can communicate without our dangerous radiating instruments. This powerful technique was followed by our great sages, and we need to revive the same.

Start your day:

Wake up and say the below 10 times -

'May the whole world enjoy prosperity, happiness and peace' or
in Tamil '**Vazhga Vaiyagam Vazhga Valamudan**'.

This will be great social service towards World Peace starting from individual peace. Start by blessing self (**Auto-suggestion**) three times: "**By the grace of the Divine I may enjoy good health, long life, prosperity, wisdom and peace**". Then bless your family members, friends, office colleagues and even enemies and see the change for yourself.

At your place of work/office:

On reaching your place of work, relax for a minute then repeat the blessing three times to create a positive wave around you-

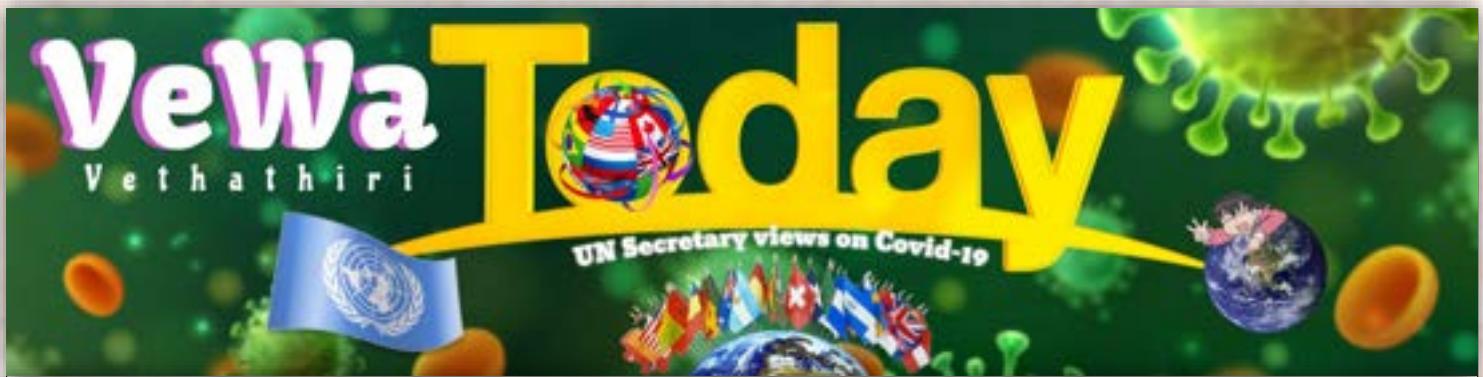

'The Divine power may protect me, guide me and lead me in all my activities, day and night, in all places, at all times.'

BLESSING IS A SILENT SERVICE FOR WELFARE OF THE MANKIND.

IT'S A GREAT BOON TO THE LIFE AT ALL THE LEVELS.

COVID - 19

From the UN Secretary-General
Secretary-General António Guterres

UN Secretary General described the current pandemic that is gripping Humanity as the worst crisis since World War 2

"Clearly, we must fight the virus for all of humanity, with a focus on people, especially the most affected: women, older persons, youth, low-wage workers, small and medium enterprises, the informal sector and vulnerable groups".

www.un.org

He further stated "It has underscored and exacerbated inequalities, above all gender inequity, laying bare the way in which the formal economy has been sustained on the back of invisible and unpaid care labour. It has highlighted ongoing human rights challenges, including stigma and violence against women.

Now is the time to redouble our efforts to build more inclusive and

sustainable economies and societies that are more resilient in the face of pandemics, climate change and other global challenges. The recovery must lead to a different economy. Our roadmap remains the 2030 Agenda and Sustainable Development Goals.

Ending the pandemic everywhere is both a moral imperative and a matter of enlightened self-interest. At this unusual

moment, we cannot resort to the usual tools. Extraordinary times demand extraordinary measures. We face a colossal test which demands decisive, coordinated and innovative action from all, for all."

Swamiji witnessed the manmade catastrophe of the Second World War. It was that global human folly which made him to start the World Community Service Centre in 1958.

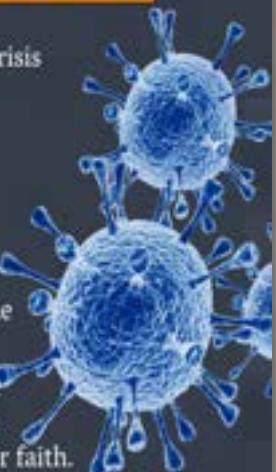

It was very clear to him that that any artificial borders created by Man out of Ego or carelessness would only create more problems. In his "World Peace" book he has outlined in great detail his plans for the whole world to be prosperous, happy and healthy. It is opportune time to revisit it. He has also addressed the UN giving his views as to how peace has to start from the individual and has given detailed plans presenting alternate political, economic and social structures without creating any unrest or revolution or loss to any group or country.

Maharishi's plans merge beautifully with the 2030 sustainable goals of the UN. Maharishi did not merely give us plans,

CORONAVIRUS

Significant takeaways from Secretary-General António Guterres talk:

- The recovery from the COVID-19 crisis must lead to a different economy*
- This war needs a war-time plan to fight it*
- This is the moment to step up for the vulnerable*
- The fury of the virus illustrates the folly of war
- Our world faces a common enemy: COVID-19. The virus does not care about race or nationality, faction or faith. It attacks all, relentlessly. Meanwhile, armed conflict rages on around the world.

This is, above all, a human crisis that calls for solidarity. In our interconnected world, we are only as strong as the weakest health systems.

The pandemic has reminded us, in the starker way possible, of the price we pay for weaknesses in health systems, social protections and public services.

FOR MORE INFORMATION www.un.org

he has given clear road maps to implement them. It is important that these are taken to the leaders of the UNO and to all leaders of the World.

When we bid adieu 2019, little did we know what we had in store for humanity for 2020.

With 2020, there was a barrage of Natural Disasters that had occurred or continue to occur in the first few months.

We need to learn that, Humans, though we are at the top of the evolutionary pyramid, do not have the right to take Mother Earth for granted.
